**THERE IS NO KNOWLEDGE
THAT IS NOT POWER...**

"You have been chosen to represent Earth in Mortal Kombat. Be warned. For although your souls are safe from Shao Kahn's evil, your lives are not. I can no longer interfere. Your Earth is now ruled by the Outworld Gods."

...These are the words of Rayden

For nine generations, the Mortal Kombat tournament was ruled by the Outworld's finest Warrior, Prince Goro. It was agreed that if the Outworld could claim victory in 10 consecutive tournaments, it would then rule the Earth. With the Earth on the brink of destruction, a new generation of Warriors gathered and claimed victory.

With victory in hand, Warrior Monk, Liu Kang, had now become the new champion. But his victory was short lived. He and his comrades were lured into the Outworld to compete in a second Tournament.

But Liu Kang and his comrades discovered an evil deception. The Tournament was merely a diversion devised by the Dark Emperor to break the rules set forth by the Elder Gods. The Dark Emperor would witness the reincarnation of his former Queen, Sindel. This unholy act gave Shao Kahn the power to step through the dimensional gates to reclaim his Queen and seize control of the Earth.

This Trilogy of events comprises Shao Kahn's final attempt at taking control of the Earth.

At the Title Screen, press the **A Button** to get to the Mode Select Screen. Select from these four choices:

The 4-Player mode will allow each player to select two Fighters. The 8-Player mode is an eight player tournament.

Use the **D-Pad** to highlight the Fighter(s) you want. You can also select and fight with "**Classic**" Characters by pressing the **START Button** when you highlight Kano, Kung Lao, Jax or Rayden. Once your Fighter is highlighted, press any **Action Button** to select and begin your Kombat!

Once you've chosen your Fighter in the 1-Player Mortal Kombat mode, you will be transported to the **CHOOSE YOUR DESTINY** Screen.

Press the **D-Pad Left** or **Right** to toggle between these columns: **NOVICE**, **WARRIOR**, **MASTER** or **CHAMPION**. Press the **A Button** to select.

You'll see a large tower scrolling with the characters' faces. If a second player wishes to join the fight, he may do so once the match begins by pressing the **START Button**. Both players return to the **MODE SELECT** Screen, where they can select the desired fighting mode.

After selecting the mode, both players go to the **PLAYER SELECT SCREEN** Screen to choose Warriors again.

FIGHTING SUMMARY

The Tournament first tests a Warrior's fighting skill by pitting him against other Tournament challengers.

In all Mortal Kombat battles, Health Meters in the upper part of the screen measure the health of each Warrior.

The meters begin each round reflecting each of the Warrior's health at 100%, but they will diminish with each blow taken.

The amount they reduce depends on the type of hit delivered and whether or not it was blocked. When a Warrior's Health Meter runs out, he/she is knocked out and the round goes to the opponent.

If the time is up before either Kombatant is knocked out, the Warrior with fewer injuries is declared the victor. The first Warrior to win two rounds takes the match and moves on to the next opponent.

FIGHTING SUMMARY

**RUN
METERS**

AGGRESSOR METERS

Run Meter

Pay attention to the Run Meters. They allow you to perform combos and run towards your opponent. But they're "time sensitive," so you can only activate the Run Function while the meter is **green**.

AGGRESSOR MODE

At the lower part of the screen an Aggressor Meter will build up as you land more and more hits upon your opponent. Keep an eye on the meter. It grows faster if your opponent blocks attacks. When the meter fully reads "**AGGRESSOR**" you'll be much stronger and inflict heavier damage on your opponent.

BUY IN SCREEN - Turn OFF to skip the Buy In Screens that occur between matches. Default is ON.

SELECT SCREEN - Select FAST to remove character stances from the Select Screen. Default is ON.

MATCH RECYCLE - Select the number of matches you want to continuously fight through (1 to 4). Choose your characters, and when the selected number of matches have been completed, the option will reset back to OFF (default). Works only in 1-on-1 mode, and not against CPU.

BASIC MOVES

EACH KONTESTANT INVITED TO THE TOURNAMENT HAS SPENT YEARS IN PRACTICE AND CONCENTRATION PERFECTING THEIR SKILLS. TO SURVIVE, YOU'LL ALSO NEED INTENSE PRACTICE AND CONCENTRATION TO MASTER THESE BASIC MOVES.

(See controller diagram, pg. 4, for Default controls)

The following moves may seem trivial compared to the more powerful and acrobatic moves, such as Projectiles or a Flying Kick. However, knowing how to stop, avoid or counter these moves can be far more useful than knowing how to land one yourself.

RUN - Hold the **R** or **B Button** while pressing the **D-Pad** to run toward your opponent. Backing off won't help against this move.

KLOSE QUARTERS

Other moves used during close-in Kombat situations are the Elbow, the Knee and the Throw. These are highly effective and do not require full limb extension, which is impossible in close quarters.

However, they can only be used when you're directly adjacent to an opponent. **Try this:** Press the **Attack Buttons** in a certain sequence for different types of "Kombos".

SPECIAL MOVES

All of the Mortal Kombat Warriors possess expert fighting skills. In that respect, they are equal to thousands of other Warriors around the universe. What raises them above their peers are the special moves which they have created and perfected. In order to become a superior Warrior, skilled enough to win the title of Grand Champion, you too must learn these moves.

These moves, whether Special Kicks or Elemental Bolts, make the Mortal Kombat Warriors the fiercest and most ferocious Kombatants around. Mastering their special moves will make you the same.

BASIC MOVES

KROUCHING MOVES

Defensively, the Krouching Moves help you avoid punches, aerial weapons and throws. The uppercut, executed from the krouch, is a very powerful offensive attack.

To do the Krouching Moves, hold the **D-Pad DOWN** and then press the **Z** or **C Button** for a Krouching Kick. Hold the **D-Pad DOWN** and push the **X Button** for an Uppercut. The Block (**Y** or **L Button**) can always be used to defend against your opponent's attacks.

SPINNING MOVES

The Spin is the key to exotic moves, such as the Roundhouse Kick and the Foot Sweep.

The Foot Sweep hits your opponent's ankles and knocks him on his butt.

The Roundhouse is a Spinning Kick that nails your opponent in the face. To execute the Spin Moves, hold the **D-Pad AWAY** from your opponent while you press either **Kick Button**.

All together, these fundamentals are the foundation for both a strong defense and a potent offense.

AERIAL MOVES

The final moves one should learn are the Aerial Attacks: Flying Punches and Kicks.

To execute these moves, either jump in place (**D-Pad UP**) or towards (**D-Pad UP+Fwd/Back**) your opponent. Press an **Attack Button** while you're in the air. Unlike most moves, Aerial Attacks must be timed properly to land blows.

SECRET KODES

At the bottom of the VS BATTLE Screen you will see a row of six boxes with different Dragon Icons in them. Both Players can change the symbols by pressing the **A**, **B** and **C Buttons**.

Player One controls the first three symbols and Player Two controls the last three symbols.

These six symbols represent secret codes which can have subtle or dramatic effects on game play.

Each button causes the symbol in the corresponding box to change in a pre-determined order.

If you hold up while pressing the **A**, **B** and **C Buttons**, the order in which the Icons are cycled will reverse.

For example, pressing Player One's square **A Button** once will change the Dragon Icon in the first box into an "MK" symbol.

Press it a second time to change it to the third Icon in the sequence (a Yin/Yang) and so on.

0		Dragon
1		MK
2		Yin / Yang
3		3
4		Question
5		Lightning
6		Goro
7		Rayden
8		Shao Kahn
9		Skull

SECRET KODES

Pressing a button more than nine times will cause the order of the Icons to start over. In other words, pressing a button that corresponds to a box with a Skull symbol will change the Skull back to the original Dragon Icon.

Let's take a look at the code: Skull, Shao Kahn, Rayden, MK, Yin/Yang and 3. To enter this code, Player 1 presses **A Button** nine times, **B Button** eight times and **C Button** seven times.

Meanwhile, Player 2 presses the **A Button** one time, the **B Button** twice and **C Button** three times. The match-up screen doesn't stay up for long, so you need to punch in the codes quickly!

Some players find it easier to memorize the codes by referring to them in terms of the number of button presses it takes to get the proper symbols in place.

For example, the code that activates the game's "Throw Disable" feature - MK, Dragon, Dragon, MK, Dragon, Dragon - is easier to remember in numeric form as: 100-100. Example, both Player 1 and Player 2 press **A Button** one time. Got it?
